Other tools

Git, ESLint, Prettier, Husky, Lint Staged, Winston, Notion, etc.

📁 PROFESSIONAL EXPERIENCE

Tecooli Service OU [🔗](#)

JavaScript / TypeScript Developer

06/2021 – present | Talinn, Estonia

Tecooli is a Web application and VR Development Service provider.

- Spearheaded full-stack development initiatives, contributing to the successful completion of diverse projects, including dashboards, JAM stack applications, and comprehensive full-stack solutions.
- Proactively identified and resolved complex challenges, such as debugging and introducing new features into a large and intricate codebase.
- Orchestrated the management of quiz assessments and seamlessly integrated secure payment gateways to enhance the user experience and drive business growth.

🎓 EDUCATION

Bachelor of Science (Mathematics)

Govt. Tolaram University College [🔗](#)

06/2014 – 07/2019 | Narayanganj, Bangladesh

📁 PROJECTS

Wed Portraits [🔗](#)

Frontend [🔗](#) | Backend [🔗](#) | Overview [🔗](#)

Wed Portraits is a dynamic, full-stack web application meticulously crafted using the powerful MERN Stack

COURSES

Next Level Web Development

- Learned advanced concepts of Web Development like Microservice, code optimization, and best practices with TypeScript, Redux toolkit, RTK Query, validation, PostgreSQL, Prisma, validations, and many more.
- Learned how to build a big project with a huge project from scath to planning, execution, and maintenance.

Node.js, Express, MongoDB & More

Instructor: Jonas Schmedtmann, Udemy

- Learned how to write big and complex backend codebase with Node js, express js, and MongoDB with Mongoose
- Learned authentication and authorization with JWT, file uploading, geo-location management, etc

React - The Complete Guide

Academind by Maximilian Schwarzmüller, Udemy

- Learned React core concepts and fundamentals and explored and learned the React eco-system with React Router DOM, Redux, etc.
- Learned how to write well-optimized and well-structured React code with best practices.

Complete Web Development Course With Jhankar Mahbub

Programming Hero

- I've learned how to take the challenge and solve it in the field of web development
- I've learned some soft skills like how to communicate, network, and solve a problem

The Complete JavaScript Course

Instructor: Jonas Schmedtmann, Udemy

- I've learned the core fundamentals and core concepts of JavaScript.
- I've learned modern JavaScript with ESNext syntaxes and OOP concepts, etc.

Advanced CSS and Sass

Instructor: Jonas Schmedtmann, Udemy

- Learned core CSS with layouts, responsive design, and animations.
- Practiced and learned user-friendly UI and accessibility best practices with browser support, device detection, contrast ratio, etc.

Technology Stack: Next js, TypeScript, Tailwind CSS, Shadcn UI, React hook form, Zod, Node js, Express js, MongoDB with Mongoose, JWT authentication, etc to create a robust, secure, and high-performance platform.

- Engineered seamless and secure user authentication with integrated Stripe payment processing, enabling users to conveniently avail professional photography services. Also implemented a feature-rich cart system for users to add services, fostering a hassle-free booking process.
- Designed an engaging user experience with blog features, enabling feedback and facilitating efficient booking management.
- Developed distinct dashboards for users, admins, and super admins, ensuring role-based access and control over content, bookings, blogs, and services.
- Separate dashboards for users, admins, and super admins.
- Ensured the website is well-responsive, optimized for performance, and user-friendly, delivering a seamless experience across devices.

Picturesque

Code Link  | Overview 

Picturesque stands as a remarkable full-stack application, artfully crafted using the JAM Stack architecture, offering a harmonious blend of modern technologies and elegant design.

Technology Stack: Next js, Tailwind CSS (No UI library used), Strapi CMS, etc offering a beautiful design with modern technologies.

- Designed a visually captivating and well-responsive user interface that not only meets but exceeds contemporary design standards, ensuring a delightful user experience.
- Facilitated user engagement through a dedicated "Contact Us" section, enhancing accessibility and communication between the platform and its users.
- Enabled efficient content management from the Strapi CMS, ensuring the platform's adaptability to changing needs and seamless updates.
